

The Way of the Wise

Scope & Sequence

The Way of the Wise is a midweek study for children on wisdom and foolishness. The curriculum contrasts the foolish person and the wise person by discussing the characteristics of each. It also teaches that the way of the foolish ends in destruction, but the way of the wise leads to life. A banner with removable pieces is used to illustrate these differences to children throughout the study. The curriculum challenges students to look beyond outward behavior and to look at the heart. *The Way of the Wise* uses the book of Proverbs to encourage children to pursue wisdom and to shun folly.
